

BA-BS/MD Application Advising Comprehensive Application Package

While it is already difficult for many high school students to navigate the complicated college application process, those who are interested in direct medical programs may feel even more lost as the process is often longer, more strenuous, and less common. In fact, many guidance counselors have never even heard of such programs! On top of this, these programs are the most competitive in the country with acceptance rates lower than those of Ivy League universities and other highly competitive undergraduate schools. Nevertheless, these programs can be highly rewarding, as students will have a conditional seat in medical school waiting for them during their undergraduate years.

Acceptance rates for BA/MD and BS/MD programs often range from 1% to 5%

How are our advisors qualified?

All of our advisors have successfully completed the BA-BS/MD application process and have received several interviews and ultimately were accepted. Some of these programs include Brown PLME, Northwestern University HPME, University of Rochester REMS, Boston University SMED, Virginia Commonwealth University GMED, Drexel University, and George Washington University.

*At S.T.E.P.S., our advisors will provide personalized attention for each student to help them stand out from the competition. By thoroughly understanding each applicant's interests, motivations, and desires, we will help you **find and develop a unique healthcare-related theme** for your application that will set you apart. After your years of hard work, we want to ensure that you successfully climb the final steps towards earning your acceptance.*

This package includes:

- Conduct an in-depth discussion about school/program preferences and motivations for medicine
- Prepare a list of programs uniquely suited for the student
