

## College Interview Preparation Package

Alumni Interviews, Scholarship Interviews, and BA/BS-MD Interviews

With varying requirements for each college and the increasing focus of expressing individuality and uniqueness, the college application process is more complicated than ever. We created the Interview Preparation package to give students practice and preparation for their future interviews. The interview is the most unique component to one's application, as it gives admissions officers a way to hear applicants' voices. Our interview preparation will help to maximize your chances of admission!
